

English & Hindi Reading Activities

To encourage and inculcate the habit of reading, Kapil Gyanpeeth organized various activities to develop the love of reading in English and Hindi for the students of Primary Wing between October 27 to 30, 2021.

Children who read regularly, develop strong literary skills. These Activities provided an opportunity to the students for enjoying a wide range of literary content. They helped enrich and enhance their vocabulary and linguistic skills. Students of classes II and III were asked to read story books like Tinkle, Champak, etc. Whereas the students of classes IV & V enjoyed reading newspapers like... The Times of India, The NIE, The Rajasthan Patrika etc. They realized that the stories offered a lot of entertainment and the information filled them with anew curiosity.

Reading different types of literature was a rewarding experience for the students as they realized its transformative and rejuvenating effects.
