

## **RE-OPENING OF SCHOOL AT KGP**

A fresh new beginning with the re-opening of school for Grades I to VIII at Kapil Gyanpeeth School today, ie on October 04, 2021, saw the excited, jubilant faces of our young learners who were happy to be back at the school.

The school, since the commencement of the physical classes for grades IX to XII from past one month, has been following all the safety measures starting with social distancing, thermal checking, sanitizing and hygiene.

Soothing Gayatri Mantra chanting calmed the little anxious souls , followed by a Class Assembly in respective Classrooms, where students said the prayer , did some breathing meditation and listened to an inspiring thought to begin their day on a positive note.

Teachers interacted with the students to soothe their worries and enthusiastic children shared about the time spent at home and how much they missed coming to the school. Numerous in class activities were organised to keep the children constructively occupied and keep them at ease. Teachers revised the lessons with them to gauge their learning during the online classes.

We thank the parents for showing their trust in us by sending their children to bring the lives back to new normal.

Looking forward to your support and cooperation as always.

Team KGP
